### ABOUT

The 12 Survivors Off-Grid Survival Stove makes camp cooking easy. Featuring lightweight and compactable components, setup is simple and assembly allows users to start cooking within minutes. The 12 Survivors Off-Grid Survival Stove comes with a nylon carry pouch, collapsible side panels, ash pan and grill grate, allowing safe fire building and effortless cleanup. The grill gate can be cooked on directly, hold a small pot or pan, or put aside for an open fire to roast hotdogs and marshmallows. Once collapsed, the 12 Survivors Off-Grid Survival Stove takes up an insignificant amount of space, only 5.75 x 0.45 x 6 inches, making backpack storage minimal, and providing an essential kit to bring along time after time.
